by nature

WELCOME TO OUR INCREDIBLE PLACE

Please make yourself at home as you embark on a journey of discovery in Port Stephens, a place that envelops you with rare and beautiful natural wonders. Where giant sand dunes provide the backdrop for exhilarating experiences, where dolphins are happy to see you and where the only thing warmer than the weather is the welcome from the locals.

Be prepared to have your breath taken away as you watch the sun paint the sand dunes gold, hear the calls of the humpback whales that grace the coastline, feel the wind on your face as you sail over turquoise waters and smell the salty air as you gallop on horseback through the shallows... these are just a few of the amazing experiences you can expect in our incredible place... where the extraordinary is ordinary...

*where the extraordinary
is ordinary...*

SAND DUNES

BE MOVED

...by mountains

WORIMI CONSERVATION LANDS

The traditional owners of Port Stephens land are the Worimi people. Walk proudly with them on sacred sand... see the majestic dunes standing guard over the Worimi Conservation Lands, as you're welcomed to Country. The Stockton Bight sand dunes (the largest of their kind in the Southern Hemisphere) make a grand statement at an impressive 30 metres high with slopes up to 60 degrees and stretching over 32 kilometres of spectacular, untamed coastline.

There is no other place on earth where you can experience the likes of these monumental dunes. Whether you immerse yourself in the culture of these ancient lands or indulge your adventurous spirit with a myriad of bucket-list worthy experiences, you'll be moved by this awe-inspiring place.

NATURE

TAKE YOUR BREATH AWAY

Sometimes, when we can't see the forest for the trees, we need to take a breath and get back to the simple things. Back to nature.

Discover coastlines carved by time, friendly dolphins that seem to beckon you in for a swim, salty air that takes your memory back to childhood beach holidays... when life was simpler.

Nature has a way of bringing us down to earth whilst lifting up our spirits, making deadlines obsolete, allowing time for stillness to take in the moment, breathe deeply and re-engage our senses.

Challenge yourself to the Tomaree Head Summit climb and be rewarded with breathtaking views, lose yourself in a subtropical rainforest, spot rare petrels and fur seals on Broughton Island or experience the stunning bush tracks and coastal trails by mountain bike.

See the whiteness of a flannel flower, the turquoise of the bay and sunsets dipped in saffron. Hear the call of the humpbacks and the gentle movement of the tides. Be dazzled by the stars' nightly performance and inspired by mother nature's brilliant show. This is why you get away... to take your breath away.

STEP OUTSIDE

...straight into a postcard

Do you dream of finding a beach where yours are the only footprints, with rockpools as clear as glass showcasing starfish and shells that glisten in the sun.

Surf breaks that give up their secrets, see underwater gardens at Fly Point where nudibranchs thrive and a bay that surprises you at every turn. Discover islands, lighthouses and seals sunning themselves on the rocky shoreline.

Stand up and paddle or kayak on the still waters, swim with the marine life on an off-shore island scuba adventure, ride the waterslide on a dolphin

cruise in the middle of the big blue bay or join a swim with wild dolphins.

Our incredible coastline dotted with 26 beaches and a bay twice the size of Sydney Harbour is not only the perfect playground for dolphins and whales but makes for a spectacular natural water park for you to explore.

The ebb and flow of the gentle Shoal Bay shoreline waves, the perfect barrels of Birubi Beach and the glass like surface reflecting sunset at Soldiers Point will entice and delight you.

SEE A SHOW

Witnessing one of nature's gentle giants breaching and tail slapping as they put on their annual ocean show truly is a bucket-list worthy experience... some say even spiritual.

Port Stephens is a world renowned whale watching destination located right in the middle of the Humpback Highway! Whales journey off the Port Stephens coastline from cold feeding areas, to warm, shallower waters for mating, calving and feeding.

See the whales as they migrate along the NSW coastline, spot humpbacks breaching and southern rights spy-hopping between May and November from vantage points along the spectacular coast or get up close on one of our eco-friendly whale watching cruises.

MEET FRIENDLY LOCALS

The 100 or so Indo-Pacific bottlenose dolphins that live permanently in the waters of Port Stephens are not just an incredible eco-experience for our visitors they are a vital part of our local community. In fact, most of the regular pods are known by name... Shirley, Smoky, Splitfin and Nicky to name a few.

Since 1998, scientists (with the help of local cruise operators, conservationists and volunteers) have been observing and studying the habits, condition and population numbers of the Port Stephens dolphins. Many whom have lived their entire life in the bay.

So when you take a dolphin cruise you'll see that, although they are wild and free mammals, they are treated like family, with respect and care.

The rocky coastal headlands and long white beaches of Port Stephens provide an ideal vantage point for watching dolphins from the shore, or join daily dolphin watch cruises. Make a day of it and have lunch on board, swim in the boom net, or make a splash on the deckside waterslide.
